📁 Experience

Volunteer Admin

September 2024 - Ongoing

The Tardis Project, Edinburgh, Scotland, United Kingdom

- ▶ Volunteering with the Tardis Project, a student-led group that provides computing services and support for students looking to learn and practice sysadmin skills in a production-like environment.
- ▶ This has involved familiarising myself with production environments to provide ongoing support.
- ▶ Have run a workshop for students on using Docker as part of outreach

Tech Scholar

May 2026 - July 2026 (8 Weeks)

Cambridge Consultants, Cambridge, England, United Kingdom

- ▶ Was involved in supporting a variety of projects - mainly extensive EVT testing for consumer products.
- ▶ Was able to utilise my familiarity with Python testing and data science skills.
- ▶ Supported a client with their web app development, and was involved in meetings with them to identify problems.

Secretary

June 2025 - May 2026 (1 Year)

CompSoc - Edinburgh University Technology Society, Edinburgh, Scotland, United Kingdom

- ▶ Was elected to the executive committee of (CompSoc)[https://comp-soc.com/], the largest student tech society in Scotland.
- ▶ Managed meetings and room bookings for the society.
- ▶ Presented a challenge at the Adahack hackathon on behalf of CompSoc, and assisted in the technical setup of a week-long hackathon with Huawei
- ▶ Volunteered at multiple open days

Tech Scholar

June 2025 - July 2025 (8 Weeks)

Cambridge Consultants, Cambridge, England, United Kingdom

- ▶ Produced a fast and versatile test script for a large array of sensors, cleaned up motion capture data and improved the reliability of a tech demonstrator.

Tech Scholar

September 2023 - July 2024 (11 months)

Cambridge Consultants, Cambridge, England, United Kingdom

- ▶ Worked during my gap year as a Tech Scholar in the Software group on a number of projects - getting to work with VR simulation, closed-loop environmental control/monitoring, systems administration and web apps.
- ▶ Developed soft skills, including teamwork, document writing and presentation skills.
- ▶ Took part in the internal Tech Scholar Project competition, for which my project team won "Best Presentation".

⚙ Skills

Programming languages

Python Javascript
C# Haskell
Java

Systems

Docker Gitlab
Databases Sysadmin

Hardware

ADB I2C

Tools

Git MS Office

🧠 Personal Skills

- ▶ Analytical thinking
- ▶ Public speaking
- ▶ Learning new systems
- ▶ Communication
- ▶ Team Work
- ▶ Research
- ▶ Project management

🔗 Projects

Self Hosting

Self-hosted web apps, including a recipe database and Foundry VTT.

Recipe Recommender

A-Level NEA project to create a website able to recommend recipes from ingredients.

Social Media Bots

Several bots for the social media platform Discord, providing various features for servers.

- Volunteered for Cambridge Consultants at the Hills Road Careers Fair and was able to speak to students about taking a gap year in industry.

Work Experience

August 2022 (1 Week)

Dogtooth Technologies, Melbourn, England, United Kingdom

- Spent a week helping out at Dogtooth, and gained insights into a professional working environment and problems faced in industry.

Education

BSC(Hons) Computer Science - Ongoing

2024 - 2028

The University of Edinburgh, Edinburgh, Scotland, United Kingdom

- **Grades:** Achieved a 1st overall in both 1st Year and 2nd Year
- **Extracurriculars:** Member of CompSoc, GEAS(Tabletop Games Society), and The Tardis Project

A Levels

2021 - 2023

Hills Road Sixth Form College, Cambridge, England, United Kingdom

- **Grades:** Computer Science A*, Maths: A*, History: A*
- **Extracurriculars:** Helped run the Tabletop Games Society
